REAL ESTATE ANALYTICS

MS-ADS 508 GROUP 6

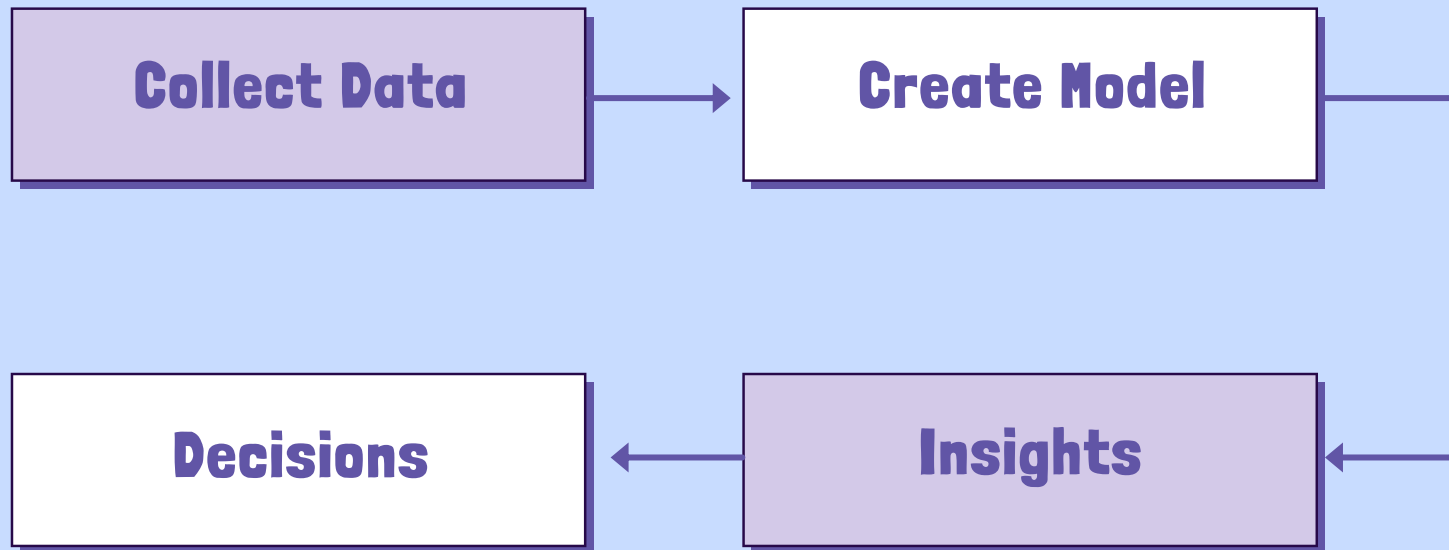

Jun Sik Ryu, Faye Shawntel Corprew

Challenge

- Housing prices fluctuate unpredictably
- Limited data-driven guidance
- Traditional analysis is slow

Our Goal

- Predict housing prices
- Identify key drivers
- Support stakeholders
- Support better decisions

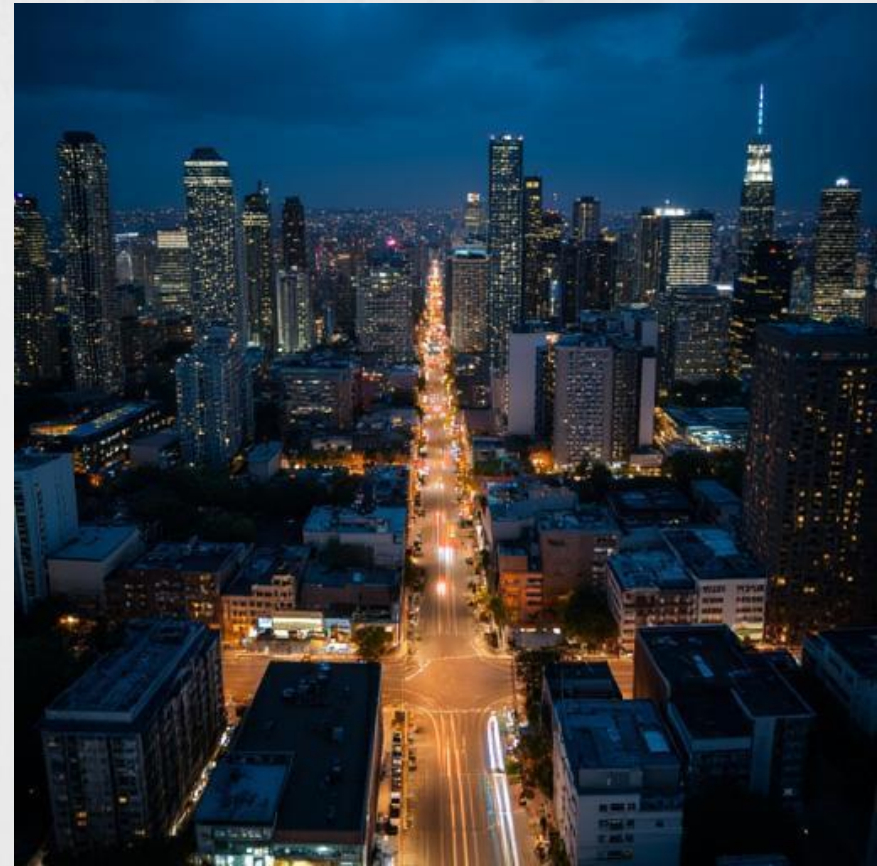

Implementations

- Zillow housing data
- Cleaned and prepared data
- Combined the cleaned and prepared data
- Built predictive model
- Evaluated performance

Conclusion

- Model predicts housing prices effectively
- Market trends strongly influence prices
- Data-driven insights

Recommendations

- Deploy the trained model into dashboard
- Update with new, recent data
- Add more external data sources
- Continuously improve the data model
